WHAT IS A CERTIFIED TRANSLATION?

A certified translation is a translation accompanied by a **signed declaration** attesting that the translation is a true and accurate copy of the original document, completed to the best of the translator's knowledge and skill.

This type of translation is generally required for documents in a foreign language that must be translated into English for submission to government agencies, such as the U.S. Citizenship and Immigration Services (USCIS), and educational institutions.

A certified translation will include a copy of the original document, the translated text, and a signed, stamped, and dated certificate from the agency with details about the translator.
